# REBOOT THE PLAN

INTRODUCTION

It is a map planning technical event in which the contestants will be provided with an empty plan of a physically existing area in India. The candidates need to plan the urban structure of that area in the most effective possible choice.

SPECIFICATIONS

- The candidates will be given a printed plan on the half-imperial size sheet.
- The plan will have either the geological or topological or the road details about that area.
- Some of the locations like lake, mountain, caves – which are permanent will be indicated in the plan.
- The candidates will be provided a numbered list of the necessary locations which they have to compulsorily added into the plan which preparing their urban design.
- The candidate will have to mark the location number (as on the list) to the point on plan where they need to locate it.
- The candidates are allowed to add more locations as per their choice and requirement.

REBOOT THE PLAN

RULES

- The limit will be : 40 minutes
- The candidates need to participate in a team of 2
- The locations (which will be provided in a list before the event to the teams) are to be compulsorily added to your plan. If you fail in adding some of these, marks would be deducted.
- Before the final submission of your plan, it would be questioned by the event coordinators for the reason of choosing a particular location, so your choice should be logical.
- The team can add more locations as per their choice. If added in a reasonable way, bonus marks may be awarded.
  - Choosing your particular location should have the economical, geological and other criterias balanced and feasible
- In the condition of a tie between 2 or more teams in the main round, a tie breaker round would be organized having some different locations that have to be plotted on the plan.

REBOOT THE PLAN

JUDGING CRITERIA

CRITERIA	MARKS
Correct location selected from list	+5
Wrong location selected from list	-1
Location not marked from list	-2
